PROFILE
SUMMARY

Software Engineer with 4 years of experience in low-code development, RPA, and enterprise application support. Proven track record in delivering automation solutions, improving operational efficiency, and supporting mission-critical systems in healthcare environments. Skilled in SQL, UiPath, and system integration, with hands-on experience in both development and testing.

KEY PROJECTS

- Hospital Meal Ordering System (Low-Code Platform)
- RPA Database Backup Automation using UiPath
- Ionic Mobile Application with backend integration (Angular)
- Console Application for Email Approval Workflow (C#)
- Sales Management Automation (Low-Code, RPA & API Integration)

PROFESSIONAL
EXPERIENCE

Software Engineer | 2022-Present
Software Dynamics Sdn Bhd

2022

- Developed and maintained a hospital meal-ordering system built with a low-code solution.
- Used SQL Server Management Studio (SSMS) for application development.
- Integrated external data sources by reading JSON API responses in VB.NET.

2023

- Mentored and guided a junior team member.
- Completed OpenText’s Advanced Training APJ Bootcamp of UFT One and LoadRunner in Bangkok, gaining hands-on experience in functional and performance testing tools.
- Performed on-site functional testing using JMeter to validate system performance and functionality.

**PROFESSIONAL
EXPERIENCE**

Software Engineer | 2022-Present

Software Dynamics Sdn Bhd

2024

- Executed and managed change requests to enhance the maintained applications.
- Assisted clients in resolving issues and provided guidance on using the low-code platform.
- Received training on a new low-code platform and contributed to a project using the platform.
- Developed, enhanced, and maintained the company's internal applications.

2025

- Gained foundational skills in UiPath and Automation Anywhere for robotic process automation (RPA).
- Implemented UiPath automation to perform daily database backups and transfer them over FTP to another host.
- Created an Ionic-based mobile application with backend integration via a low-code platform.
- Guided team member and collaborated on the development of an Ionic mobile application.
- Enhanced internal processes using RPA and low-code solutions to reduce manual work.

2026

- Developed a C# console application to manage email-based approval workflows, integrating APIs and Microsoft Graph API.
 - Contributed to platform migration from older version platforms to latest version, ensuring system stability and compatibility.
 - Performed enhancements and ongoing maintenance for supported applications to improve performance and reliability.
 - Implemented low-code automation solutions leveraging API integrations to streamline business processes.
-

EDUCATION

Universiti Sains Malaysia (USM) | 2017-2021

Bachelor of Computer Science

Kolej Matrikulasi Perak (KMPK) | 2016-2017

Module 1 (PST) Session 2016/2017

SKILL

Programming: VB.NET, JavaScript, TypeScript, C#, Java, C++, HTML, CSS

Frameworks: ASP.NET, Angular, Ionic

Database: Microsoft SQL Server, MySQL

Tools: UiPath, Automation Anywhere, UFT One, JMeter, Postman, Figma

Platforms: Visual Studio, VS Code, Android Studio, Eclipse

CERTIFICATES

- UiPath RPA Fundamentals (2025)
 - Automation Anywhere Fundamentals (2025)
 - OpenText UFT One & LoadRunner Bootcamp (2023)
 - Agile & DevOps Management
